

PT+PFC

WIRE MARKING

- Sleeve with oval, transparent pocket for marking labels.
- The design allow quick mounting and easily adjustable sleeve on the wire.
- The sleeves resilient construction keeps marking labels protected and fixed in position.
- The marking tags are printed on Moca card printer.

GENERAL INFORMATION

Design

PT+PFC is a closed marker holder of improved profile design with a pocket to hold the PFC marker tags.

The profile design with grooves, decrease the friction when pushing the sleeve on to the wire.

The sleeve is mounted directly on cable or wire before assembly. The marker labels/tags can be inserted before or after assembly.

Print

See TDS for PFC card.

TECHNICAL INFORMATION

Temperature range

-30°C to +60°C (-22°F to +140°F)

NB! Only the sleeve.

Storage

+15°C to +25°C (+59°F to +77°F) < 95% Rh

Product performance

- Resistant to UV radiation equivalent to ISO 4892-2 700 h
- Excellent resistance to aging and chemicals.

For application in extreme environments, please contact ParTex for information.

Material

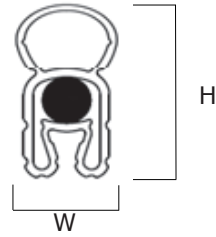

Cadmium and silicon free soft PVC.

Colour

Transparent.

DIMENSIONS IN MM (NOMINAL)

Product type	Length	Width (W)	Height (H)
PT+PFC02	12/15/18/21/30	5	5
PT+PFC10	12/15/18/21/30	5	7

SIZES AND PACKAGING

Article number	Diameter mm	Intended for Inch	Area mm ²	AWG	Qty/Pack.	Suitable PFC-tag
