

“PHARMA” TRANSPORT

With our newest trailers, which have a “Pharma Certification”, we perform all Pharma transports based on HACCP and GDP standards. All trailers also have independent tracking of a complete trailer (Doors, fuel, weight, temperature, tire pressure). With this and with extra educated drivers we guarantee the highest level of services when transporting medicines. Temperature monitoring is also enabled through applications on mobile phones, whose dispatching service is regularly informed about the temperature and condition of the shipment.

We provide:

- HACCP
- GDP
- Full information vehicle tracking
- Controlled temperature capability
- Live temperature monitoring
- Live mobile reporting
