

BeneSOL HAIRMEAL

Organic Fertilizer

BeneSOL HAIRMEAL is an organic fertilizer that will contribute to soil organic matter and soil fertility. The organic raw material makes for an organic fertilizer with controlled release of nutrients over time.

The period of releasing nutrients lasts from a minimum of 90 until up to 120 days. BeneSOL HAIRMEAL is an N-rich fertilizer with a controlled release of Nitrogen. Due to the high amount of nitrogen the development of roots, leaves, stems and vegetative organs can be stimulated. This fertilizer is commonly used as a very effective N source in biological agriculture. The fertilizer is also very well suited to be applied complementary to other fertilizers.

The product is produced in compliance with the EU regulations EC 1069/2009 and EU 142/2011.

Unique characteristics

- Very high N fertilizer with a slow release
- Effective for use in organic farming
- High in organic matter
- Can be used complementary to other fertilizers
- Listed by control union

Product characteristics

Pellet diameter	4,5 mm	Raw material	100% Hairmeal
Dry matter	97%	Humidity	3%
Organic matter	95%		

Nutrition values

Nitrogen	(N total)	14,0%
Nitrogen	(N organic)	14,0%
Phosphate	(P2O5)	0,5%
Potassium	(K2O)	0,2%
Calcium	(CaO)	0,2%

Trace elements

Zinc	(Zn)	190 mg/kg
Copper	(Cu)	14 mg/kg

Dosage averages

Arable land vegetables	800-1.500 kg/ha*
Trees	2-5 kg/tree*
Horticulture	1.000-2.500 kg/ha*
Garden	1.000-1.500 kg/ha*
Sports and lawns	500-1.500 kg/ha*
