NOT JUST A PUZZLE OR A QUEST

It's story-telling
puzzle quest

Learn more

It's a one-of-a-kind wooden puzzle with
unique pieces and a catching detective
quest to be solved

Learn more

HOW TO PLAY?

Open up the box. There are several envelopes containing everything that brings you closer to solving the epic mystery

Open up the envelopes to assemble the puzzle of the numerous streets of Quatro City.

Are you done with the puzzle? Meet the protagonist of the story - a player character - Mark Eidos. This sharp-eyed detective is sure to know a thing or two about multifaceted investigations!

Scan the QR code to fully dive into the atmosphere of the town and start your investigation!

From now on, only you can help Mark Eidos unravel the mysteries, complete all quests, and solve the case that is more complicated and bizarre than it may seem.

Enjoy your new puzzle that is fraught with many plot twists and surprises!

watch video

FULL PACK OF ADVENTURES!

OUR STORY

ENJOY THE WOOD™

enjoythewood.com

In the heart of Ukraine, the story of Enjoy The Wood came alive in 2014. Born from the collective vision of Igor and Maryna Fostenko, along with the support of Maryna's parents, this company was founded with a soul and purpose. Their mission? To infuse homes, offices, and lives with joy, inspiration, and adventure through sustainable and stylish creations. And that mission lives on.

Founders' Journey: Triumph Over Adversity

Igor's life was etched with adversity from a young age - poverty, loss, and homelessness. Yet, these challenges sculpted him into a resilient entrepreneur. Abandoned by his father at three, he, along with his sister, navigated through extreme poverty.

It was an adventure life on the streets until he met a religious mentor, who reached out to help Igor to live life on the streets.

At the age of sixteen, Igor met Marina, and their partnership grew into a marriage at the age of twenty-one. The dream of a thriving family business ignited his entrepreneurial spirit.

The beginning: A dream realized

A conversation over dinner was the impetus for the birth of Enjoy The Wood. Igor was willing to create some unique decor for homes and offices. The idea captured Igor and Maryna's imagination, which led to the founding of their brand in 2014. And in 2016 he crafted his first wooden world map for his office, and the story begins! There were many modifications, tries, and adaptations. But all the efforts paved the way for global recognition!

Since then, Enjoy The Wood products have been decorating homes in more than 90 countries, resonating with people of all backgrounds.

Triumphs on Kickstarter

The year 2016 was a turning point for Enjoy The Wood with their first Kickstarter campaign. Seeking \$15,000, they exceeded expectations by raising over \$100,000. This triumph underscored the demand for their unique craftsmanship. And after this success, people from all over the world are trying to repeat it.

Subsequent campaigns to sell 3D wooden city maps and other innovative products have cemented Enjoy The Wood's reputation, raising hundreds of thousands of dollars.

War and Rebuilding

The war brought devastation and destroyed the company's production facilities and offices, as well as equipment and finished products. There was a hard time for decision making, where to locate the production, But Igor decided to support the country and people and within only a few months, Enjoy The Wood rebuilt production in Serednie near Uzhhorod, demonstrating unprecedented resilience. All the team members who were able to help and weren't involved in the relative's and friends' life support - consolidated and were doing everything that could to make the project still alive.

Global partnerships and growth

Since 2021, Enjoy The Wood's B2B sales have been booming around the world. The focus on reliability and meeting customers' request ensures that partnership with the Enjoy The Wood contributes to building long-term partnerships and creating an inspiring environment.

Respect for the environment

Even in times of war, Enjoy The Wood remains committed to making a positive global impact. In partnership with Tree-Nation, they offset CO2 emissions by allowing customers to track their contribution to reforestation.

Join the story!

In a competitive world, Enjoy The Wood is not only a business, but also a testament to the human spirit. Each product tells a story of perseverance and bravery, inviting you to be a part of their extraordinary journey!
