

Spectrum International

Your trusted B2B partner for
electronic goods

Who we are

Small, but mighty.

Since 2015

Spectrum International is a dynamic company dedicated to the trade and wholesale of consumer electronics especially mobile phones and tablets. We are resellers of the major brands and deal with original, brand new, sim free, low, middle and high-end items.

With over 15 years of experience in the industry, we are well-connected and have established good relationships with many global suppliers.

Only with the best

Our collaboration with the best express couriers (FEDEX, UPS & DHL) gives us the opportunity to deliver goods the next day within Europe and 2-3 days in the Middle East and Asia Pacific.

Working with a strong, reliable and worldwide freight forwarder network, we can provide logistic solutions to be the closest possible to you. We have rigorously selected warehouses in many European countries, as well as Dubai, Hong Kong, Singapore and Miami.

Problems

Common problems in the industry today.

Lack of distribution for certain brands/niche products

Not every supplier carries the same brands or the same products.

Sold out stock

Local distributors may not have enough to supply everyone.

EOL products circulating on local level

"End of Life" products have a different life cycle, making availability complicated.

Solutions

Our clients continue to trust us with their orders and logistics time and time again.

Accessibility

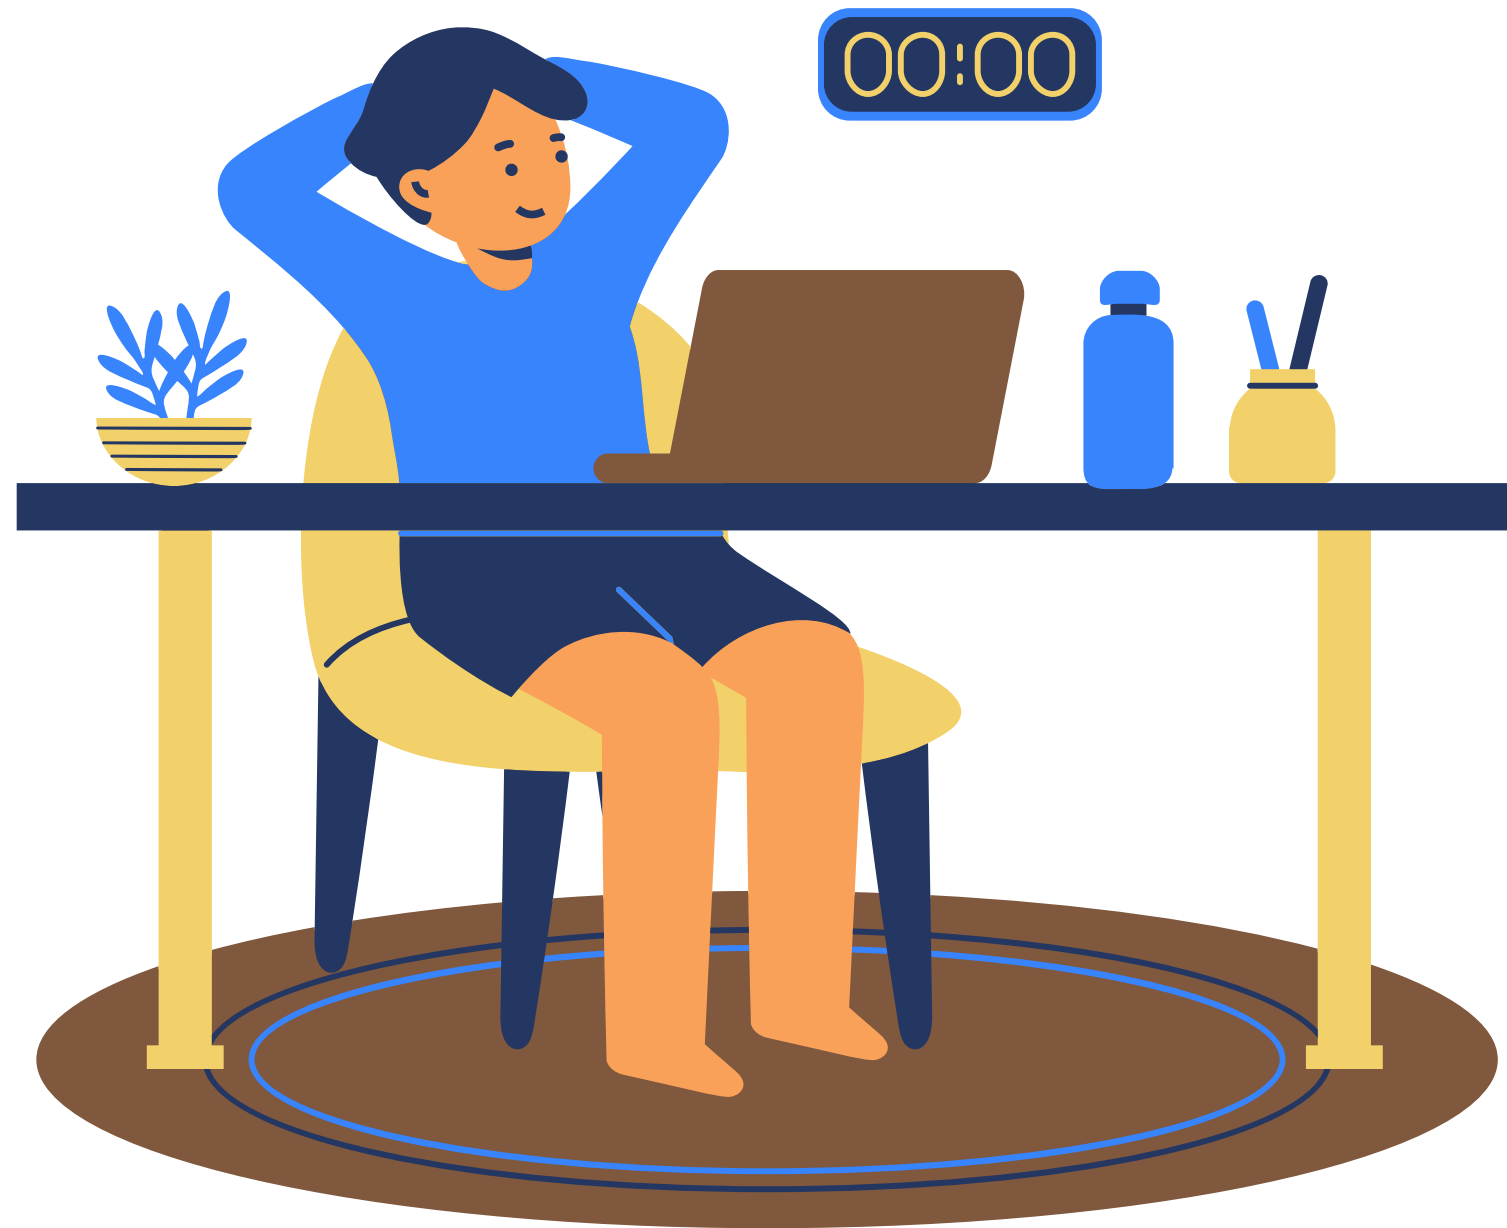

Spectrum has developed good and sustainable relationships with suppliers all around the world with access to all kinds of electronic goods.

Competitive Prices

We are able to source goods from many different suppliers, having often better prices than the competition.

Reliable Team

Our competent and multilingual team works hard to ensure quality products are delivered to you when you need them.
