Matting System Market

➤ Floor Pollution Control Matting System

Up to 80% of all dirt in both commercial and residential buildings is carried in by pedestrian traffic. Floors are the most abused element in any facility. On hard flooring, abrasive dirt particles scrape and damage the surface. The foot traffic of 1,500 people can remove 42% of the floor's finish, and 95% of all carpet appearance problems are caused by soil and traffic patterns. Rismat® has developed a new range of products, offering a complete solution to all flooring problems.

Rismat's Floor Pollution Control Matting System is designed to prevent dirt and dust from entering the premises by uncontrolled foot traffic. By adopting our method, you can achieve considerable cost savings and help the environment at the same time, by using less cleaning personnel, water resources, and cleaning chemicals.

➤ Total Available Market of Mats

Commercial Use

Calculation formula (sqm.):

$1-3\% \times \text{commercial buildings floor area}$

Industrial Use

Advertising Use

Rental Use

Car Use

Residential Use

Calculation formula (pcs):

PART 02

About Us

➤ Company History

1994

RISMAT China sales office was established in Shanghai

2016

RISMAT attended ISSA INTERCLEAN Amsterdam Exhibition, start to develop Europe market

1993

RISMAT, an eco-matting solution company was founded in Hong Kong

2011

RISMAT Canada sales office was established in Toronto; FloorGuard Manufacture center was established in Shanghai

➤ Factory Introduction

With manufacturing facility in Shanghai, RISMAT has been specialized in the research, manufacturing, sales and service of matting system for around 25 years. As a fully automatic, modern factory, FloorGuard operates with a lean workforce of approximately 40 full-time employees. Even with such a small staff, the annual production capacity value can reach over \$30 million USD per year.

The factory covers an area of 69,000 sq. ft. (6,400 sq. meters) and consists of tufting, prepping, manufacturing, packaging and warehousing, as well as office and quality control space for support staff.

Production Capacity

Cotton mats – 38,000 m²/month
Nylon mats – 14,000 m²/month
PP mats – 20,000 m²/month
Polyester mats - 20,000 m²/month
PVC mats - 20,000 pcs/month
Rubber mats - 3,000 pcs/month

February 26, 2015
Mr. William Chang
Rimat (Floorguard) Matting Systems Inc.
7 - 155 East Beaver Creek Road
Richmond Hills, AL L4B 2N1
Canada
Dear Mr. Chang
Congratulations! The Magic Mat was tested per the NFSI 101-C Test Method for Measuring Dry Transitional Coefficient of Friction (TCOF) of Floor Mat Backing Materials on February 23, 2015 and was found to be in compliance with the standards "High-Traction" requirement. Your certification is good through February 23, 2016.
The Magic Mat, along with promotional literature, brochures, websites, etc. are hereby granted permission to be labeled as "NFSI Certified". An electronic version of the NFSI Certified logo is attached.

Again, congratulations and thank you for submitting your product to the NFSI.

Sincerely,

Russell J. Kneiser
President

PART 03

Products

➤ 5 Requirements of Effective Matting

Durability

Provide Safety

Esthetics

Easy maintenance

Effective cleaning functionality

➤ Flagship Product - Magic Series

Magic Mat
1st Generation

Heavy duty grease resistant
rubber backing
Super absorbent cotton &
microfiber yarn
Effectively captures moisture
& debris in entrance ways

Action Mat
2nd Generation

Heavy slip resistant PVC or
rubber backing
Absorbent textile synthetic fiber
Effectively captures moisture &
debris in interior areas

Action Mat Plus
3rd Generation

Heavy slip resistant PVC or
compound rubber backing
Absorbent synthetic fiber with
monofilament scrubbers
Effectively captures moisture &
debris in interior areas

➤ Primary Matting System

First guard

Modular design for custom fit
UV resistant PVC
construction

Flexi guard 99

Modular design for custom fit
UV resistant PVC
construction
Available in 6 brush textile
colors

Walk off

Modular design for custom fit
UV resistant PVC
construction
Tufted-pile monofilament
inserts for superior scrubbing
Heavy duty wear

➤ Secondary Matting System

Cero Mat

100% nylon fiber
Heavy slip resistant
compound rubber
backing

Cero Plus

High absorbent nylon
fiber blend with
monofilaments
Heavy slip resistant
compound rubber
backing

Armor Easy

High absorbent synthetic
fiber
Slip resistant compound
rubber backing

Armor Plus

High absorbent synthetic
fiber blend with
monofilament
Slip resistant compound
rubber backing

➤ Specialty Matting System

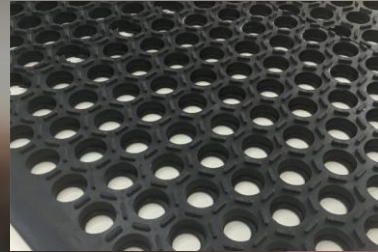

Urinal Mat

Anti-bacterial treated polyester fiber
100% Rubber backing
Effectively absorbs moisture & deodorizes interior areas

Anti-Fatigue Rubber

Grease resistant 100% Synthetic Rubber
Unique profile promotes movement while relieving worker fatigue

Hex Guard

100% Non-Slip grease resistant Rubber
14.5mm channels redirect debris from surface

Comfort Tile

Modular design for custom fit
PVC Construction with Snap-together links

➤ Customized Matting System

Jet Print Logo Mat

Heavy slip resistant rubber backing
100% nylon fiber
Can be washed by laundry machine

Banner Mat

Heavy slip resistant and grease-proof synthetic rubber backing
Treated polyester

Inlay Logo Mat

Available in different patterns
grease-proof rubber backing
100% nylon

➤ Residential Matting System

Door Mat

100% cotton surface
Heavy slip resistant rubber
backing
Can be washed by
household washing machine

Bath Mat

Thicken cotton surface
Anti-slip rubber backing
Can be washed by
household washing machine

Car Mat

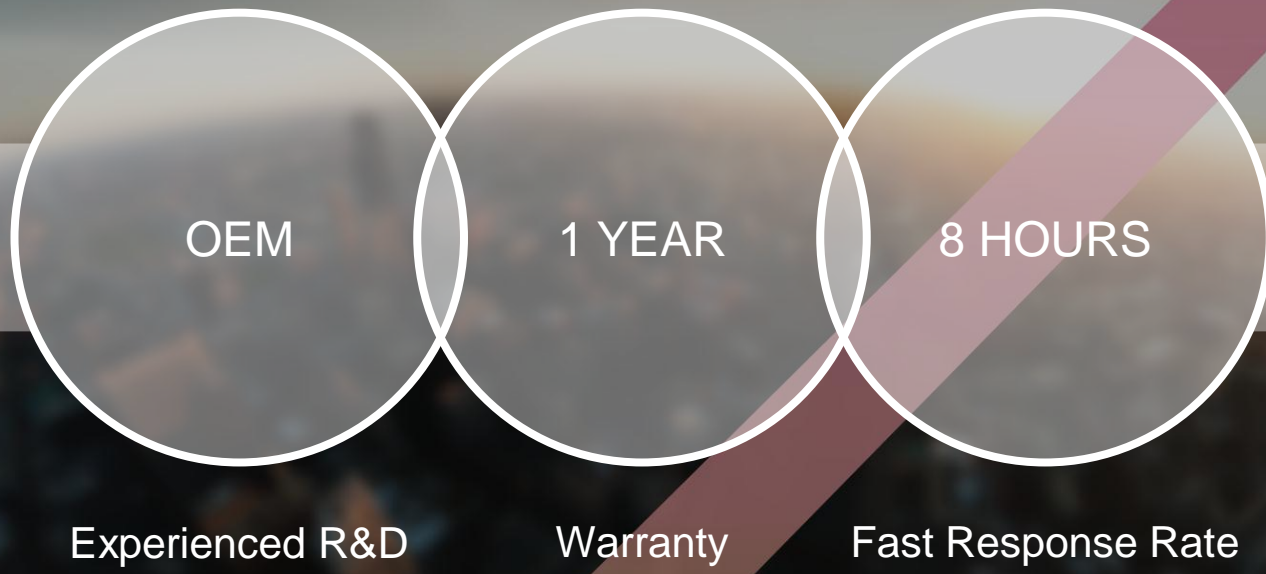

100% nylon surface
Available in different patterns
Grease-proof rubber backing
Can be washed by
household washing machine
