Free Design, Space Planning & Acoustic Surveys

ALXR Ltd (FM) was formed with a vision to supply hospitals and other NHS organisations with realistically and competitively priced office furniture and interior solutions.

Behind the front end of the website, boasts a competent team with a wealth of experience and product knowledge and have established valuable working relationships with our key suppliers.

We supply the following working areas:

- Residential & Accommodation
- Office Chair & Reception / Waiting Areas
- Office and Working Spaces
- Office Storage
- Meeting & Conference Spaces
- Shared Spaces

We also have an in-house CAD design department, producing 2D and 3D visualisations that give our clients reassurance when planning projects.

Our projects team manage from conception to completion at a professional standard and in line with current legislation whilst our web team ensures our websites are fully functional and up to date.

Some of our clients include **Coca-Cola, NHS, Cath Kidston, Twining's Tea, Glaxo-Smith-Kline, Chelsea Football Club, Burberry, Debenhams, The BBC, Telegraph Media Group and Madame Tussauds**, to name but a few.

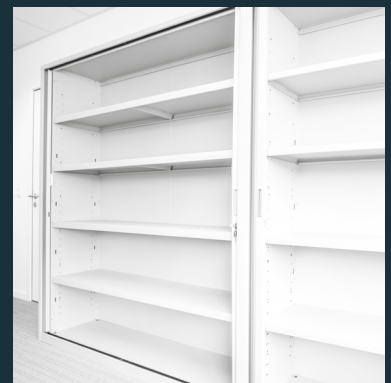

From conception to completion, we can help with any aspect of the workplace design process.

We offer a free space planning and design service to visualise the myriad of office and contract furniture products that we showcase.

Gone are the days where we will be faced with row upon row of office desks and instead more emphasis will be put on wellbeing, video conferencing, quiet areas, breakout spaces and of course office games!

We are here to help and so if you need some help visualising your space give us a call today.

Using the latest in CAD technology we generate floor plans in 2D and 3D format which will bring any space to life ahead of the procurement process. We also provide acoustic surveys which are designed to aid with decreasing or eliminating reverberation and excess noise.

The workplaces that we return to post pandemic will almost certainly be shaped differently.

Office furniture delivered free to Mainland UK

We pride ourselves on our comprehensive selection of affordable, quality office furniture products, office desks and office chairs. Our sales team will be happy to take your order and help you find the perfect fit for your environment.

Our website is constantly growing with new products added daily. Please keep checking back with us 0116 246 0733- we are well worth a second visit as there's always something new. We also offer a free delivery service on all of our office furniture ranges to most UK mainland addresses.

We have over 20 years experience of working in the NHS supporting the delivery of products and healthcare services. We are committed to supporting the NHS by delivering products that prioritise patient safety at the best value without compromising quality, safety and service.

Our products go through extensive quality control procedures at each step of the manufacturing, assembly, packing and shipping process following strict sterilisation, hygiene, technical and quality compliance procedures. These are verified regularly and independently to ensure consistent results and quality targets. Spot checking and testing is also carried out throughout the manufacturing process and on finished products.

Supplies available to purchase through NHS Supply Chain or get in touch to buy direct. Discounts and rebates are available.
