We have over 20 years experience of working in the NHS supporting the delivery of products and healthcare services. We are committed to supporting the NHS by delivering products that prioritise patient safety at the best value without compromising quality, safety and service.

Our products go through extensive quality control procedures at each step of the manufacturing, assembly, packing and shipping process following strict sterilisation, hygiene, technical and quality compliance procedures. These are verified regularly and independently to ensure consistent results and quality targets. Spot checking and testing is also carried out throughout the manufacturing process and on finished products.

Supplies available to purchase through NHS Supply Chain or get in touch to buy direct. Discounts and rebates are available.
