PC
## WIRE AND CABLE MARKING

- Customized multi-character marking on one single sleeve.

- Rational installation with one step mounting procedure saves time and marking costs.

- Transmission of marking data is made via e-mail, fax or regular mail.

- Flexible design, no wastage, reduced stock keeping.

- Packaging for different needs to speed up marking work on installation site.

General information

Design
Wire and cable marking with all information on one single sleeve. For all ready connected wires customized PC- sleeves offer a very fast snap-on mounting. Selection between three packaging consisting of:

1) Semi detached unsorted sleeves in big loops,
2) Customized sorted according to project demands.

Material
Cadmium and silicon free hard PVC according to Partex formula.

Standard colours
Yellow, white, red, orange, green, blue, grey with black printing; black, brown, violet without printing.

Standard printing
Black etching ink jet printing.

Text
Alphanumerical and special characters. Character height 2.4 to 3.2 mm depending on marker size.

Marking types
1) Open wire marking: PC-10, PC-20, PC-30, PC-40 and PC50.

Temperature resistance
Shape permanence from −30°C to +60°C (−22°F to +140°F).

Marking information
Transfer of marking information to Partex via e-mail (e.g. with enclosed Excel files), fax or mail.

Resistance
The product is tested according to Partex Product Test Programme by the Swedish Test and Research Institute and has the following test properties:

Flammability resistance according to UL94-V0. Resistant to UV radiation, corresponding to 1 year outdoors in the south of Sweden. Resistance to chemicals meets Partex Product Test Programme. Resistance to temperature and ageing meets norms of Partex Product Test Programme.

For application in hostile environments, please contact Partex for information.

Overview
