iL Economy 4000F/MP

Although of low design, the load receptors of the iL Economy models are suitable for harsh industrial environments. Their flexibility makes them universally usable - outstanding weighing results are guaranteed.

More information
High performance
with a wide range of
solutions and options.

Product description

The multi-point load receptors iL Economy are suitable for different weighing ranges and load capacities of up to 2,000 kg or 4,000 kg. They are designed for applications in dry and wet areas. As a painted version they are the ideal solution for the logistics area. The models for the wet area use stainless steel for both, the weighing platform and the load cells. Load cells and cable junction box are in both versions used in the highest IP protection.

Whether built-in, freestanding or used with one or two ramps, the iL Economy models are configured to match your requirements and provide outstanding weighing results in any constellation. The iL Economy is also available as Ex version which allows the use in hazardous areas classified as zones 1/21 and 2/22.

iL Economy 4000F/MP

Highlights

- Simple, sturdy construction
- Welded construction
- Low-maintenance and wear-resistant operation
- High long-term accuracy
- Good shock and vibration absorption
- Weighing ranges
 - iL Economy 2000F/MP: 600 - 1,500 kg
 - iL Economy 4000F/MP: 1,500 - 3,000 kg
- Nominal loads
 - iL Economy 2000F/MP: max. 220 kg or max. 550 kg
 - iL Economy 4000F/MP: up to 1,100 kg

Options

- Intrinsically safe version suitable for zones 1/21 and 2/22
- Pit frame
- Drive-on ramps
- Ramps, also extra long available
- Fixing plates
- Load platter in checkered plate

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
