Knight Optical's Custom-Made Precision Optics

Here at [Knight Optical](http://www.knightoptical.com), we understand that there is no one size fits all for your optical component specifications. That is why – as well as edging down our [stock optics](#) – we also offer our entire range as [custom-made components](#).

This bespoke option is popular across a variety of sectors such as defence and aerospace, medical and research as well as engineering and manufacturing industries; to name a few. By opting for our customised service, not only will you be able to choose the material, millimetre-perfect dimensions and thicknesses best suited to your application, but you will also be able to pick appropriate [optical coatings](#) to protect or enhance your device's operability.

If you would like to discuss your optical requirements with a member of our team or to find out more about our custom-made optics, please get in touch on +44 (0)1622 859444, choose option One. Alternatively, click [here](#) to view our full range of custom-made optics.
