

MEGA-CLEAN-MASTER

Mobile, dust-free working „GLÄSNER“ – High performance Pressure Blasting system with media recirculation

The system consists of

- mobile chassis
(W x D x H = 1.120 x 560 x 1.700 mm weight approx 115 kg)
- With attached blasting pot and media silo
- Vacuum cleaner with accessories
- Capacity of blasting pot and silo approx. 18 ltrs. each
max. operating pressure 8 bar
- Blast media dosing valve SA ½“
removeable sieve insert
- Pre-separator
- Water separator ½ “ HMS
- Compressed air supply with KAG 12 air coupling
- Blast head EDBH50
- Pressure blast nozzle made of boron carbide with 4,5 mm
diameter, flat brush nosepiece
- Connection hoses between blasting pot 7 silo and blast head
- PVC suction hose 41 mm with couplings
- Blast hose 13 x 7,5 mm and 19 x 7,0 mm with couplings
- Pneumatic foot-switch to control the blasting process

Suitable blast media:

- glass beads, corundum etc. – up to 0,8 mm grain size
- steel shot – up to 0,4 mm grain size

The system components are build for a maximum operating pressure of 8 bar.
The system must not be used in an explosion-prone environment

Options

We supply at extra costs:

- edge nosepieces
- fringed nosepieces
- elbow nosepieces
- flat-lip nosepieces
- brush-elbow nosepieces
