### ... smart connection

**the flexible connection  
to the kvm-tec  
switching system  
Remote Workplaces**

**Innovative user application  
in real time for all  
Laptop or Desktop - devices  
with Windows 10**

[www.kvm-tec.com](http://www.kvm-tec.com)

The required bandwidth is reduced by a special bandwidth management and therefore remote working in almost real time is possible. Gateway2 go is connected to the Internet via VPN tunnel and can therefore be connected from the remote workstation to any PC in the matrix switching system.

Operating system Windows 10, bandwidth 70Mbit/s for desktop working, 500 Mbit/ for smoothes video playback

#### License model for remote workplaces

Monthly licenses are booked on demand, making the Remote Workplace very cost effective and efficiently covering peak times.

- Windows APP with unlock code for installation on a PC
