Igor Falelyukhin

chief editor of «Wild nature HD»
and «HOME 4K» TV channels

“ «HOME 4K» has managed to grow from a regional channel to an international anti-stress TV channel with big goals and capabilities. We wouldn't have been able to achieve this result without a team of professional cameramen, a special insight into the world and the constant support of the audience. Everyone has a natural place of power. A person feels free and protected there. It is important for me, as a channel chief editor, to convey emotions to the viewers through the screen, as if they were constantly living in their ideal world. ”
