## Pipe bending manufacturer custom pipe components

Pipe bending components China supplier

## Pipe Bending Services for Pipe Components

Our pipe bending & fabricating service (<https://www.dllmetalparts.com>) is a cold machining technics for making pipe products, such as trolley handles & frames, chair brackets & backrest, Bathroom pipe faucet, Safe handrails in sports places, Horticultural accessories.

U type Pipe Bending

That means all material should be in structure of pipe, then machining by pressing machines (pipe bender) to different flexural figures, and most pipe products need drill holes, pipe necking & expanding, oblique cutting, etc.

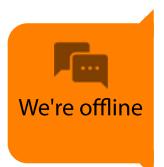

CNC tube bending service

Generally pipes still need to be polished and surface treatment after machined, such as painting, powder coating, chrome plating, chemical polishing, anodizing.

Welded joint

We specialize in pipe (tube) bent & fabricated products many years, can produce curved pipes from aluminum pipe, stainless steel pipe, carbon steel. if you want custom tube bending fittings (<https://www.mxmparts.com/tube-bending-fittings/>) from China, welcome send inquiry to us.
