

# SQUARE, RECTANGULAR, OVAL SHAPED MOULDS AND BLOCK-MOULDS

Servi Doryl offers two ranges of moulds that can be used individually or assembled into block-moulds : with or without bottom.

If necessary, extensions can be proposed with the moulds.

## APPLICATION

Moulding and draining of soft cheeses

## MATERIALS

Injected parts in copolymer polypropylene

## DIMENSIONS

- Different shapes : square, rectangular, oval etc.
- New sizes on request

Wide range of shapes and sizes  
Depending on the mould, with or without perforations  
Fully adaptable to your mechanization and production

Possibility of plastic materials detectable by X-ray or metal detection  
Food contact capability (certified)

Cleanability foreseen from the design phase  
No retention and all surfaces are accessible for cleaning

Recyclable materials, controlled recycling circuits  
Possibility to take back moulds and block-moulds at the end of their life  
Reduction of the environmental footprint
