

# PARTNERSHIP BENEFITS

Source new raw materials according to your buying criteria

Advertise your services to our clients, for free.

Choose us as your Single Point of Contact

Access our private software and manage all documents.

Trust us to protect your confidential data

Keep your formulas compliant at all times

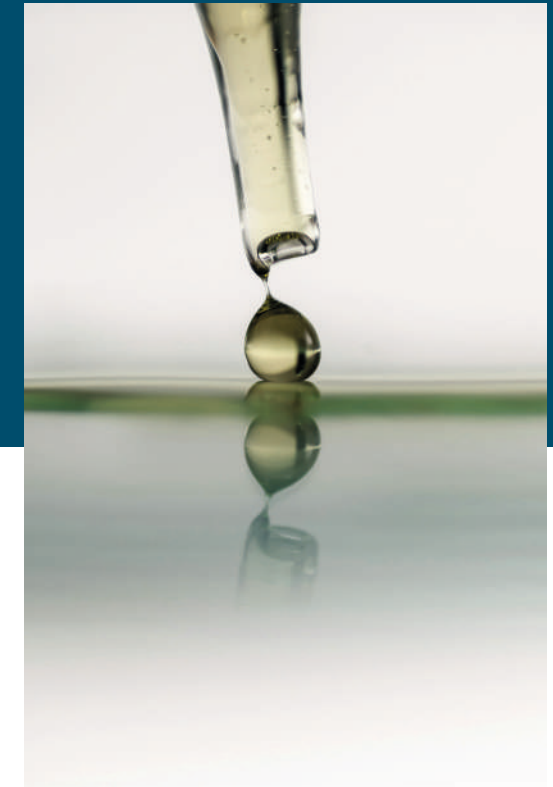

# WHO ARE WE?

We are cosmetic regulatory experts specialised in the registration of cosmetic products in Europe and Great Britain.

It seems that we are talking to the same people but not about the same things. Since we are not competitors we might as well become partners. By joining forces, we could grow our businesses together and offer an even better service to our clients.

Interested in this win-win partnership? Contact us today to discuss your regulatory needs and gain peace of mind with a warrant of compliance during the life of your product on the market!

Let's talk!

We bring Europe  
to your doorstep

# Our case studies

Credibility is key at Taobé Consulting.

Our case studies offer proof of successful collaborations. Benefit from a tailored approach in which we focus on mutual growth and on the integration of regulatory compliance.

With us, achieve compliance, financial benefits, and a hassle-free entry into EU and UK markets.

## 01

### Multi-Market Compliant Formula

As a private labeller selling the same formula to various clients, attracting new brands with formula pre-approved for different markets is definitely a plus.

Brands that wish to go to Europe and the UK need to be certain that the formula meet both regulatory and safety compliance. While your R&D software can provide some regulatory insight, it's unable to go through the raw materials' documentation and confirm full compliance. Only a certified Safety Assessor can perform this tedious task!

Partnering with a serious regulatory expert allows you to:

- Have a standalone quality check for each product
- Create formulas that are EU and UK compliant and sell them at a higher price
- Provide your clients with formulas already half registered on the market
- Promise the brands a fast and smooth process to complete the registration with a trustworthy partner

## 02

### Promise Your Client A Hassle-Free Journey Expanding To Europe and UK

As a cosmetic manufacturer, you come across clients who wish to sell their products in Europe or Great Britain, and may handle the CPSR/PIF on your end. But are you willing to become the responsible person for them?

What if you could delegate the entire registration process to a partner against a referral commission for each client you introduce?

And what if you knew we would take care of the regulatory watch for your formulas and make sure all documents remain up to date?

By partnering with Taobé Consulting, you can expect:

- To receive a commission each time you introduce us to new clients
- To be introduced to cosmetic brands and to verified ingredient suppliers
- To keep your documents confidential to our mutual clients

Together, we can take care of a product journey from start to finish, ensuring the fastest and most efficient way to market!
