

# THE NOT SO TEMPORARY, TEMPORARY TAPE

The competition states  
up to **three months**

Our tape states  
up to **six months**

\* Customers are advised to test any products for their own application and environmental condition suitability.

Now there is a protection tape with clean peel, great tack and adhesion on rough surfaces and superior UV protection for your premium masking and protection applications.

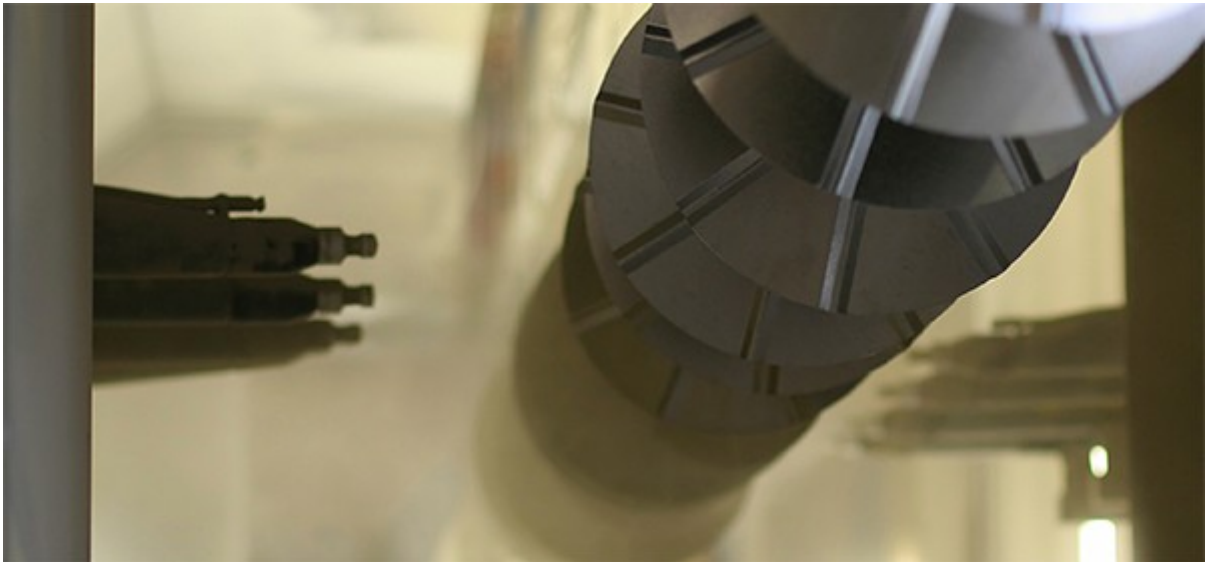

Ideal for a variety of protection and masking applications on textured and rough surfaces, where UV resistance is critical:

- Aluminum and metal profiles
- High-value window and door materials
- Powder coated textured surfaces

# KEY BENEFITS

- Good tack for instant bonding and ultimate adhesion to a wide range of surfaces
- Removes cleanly after use, even after medium-term UV exposure
- Removable, acrylic adhesive particularly designed for rough and embossed surfaces
- Suitable for temporary masking and protection applications in outdoor environments
- Can be applied either manually or automatically, without film stretching
- High humidity resistance
- Available in both red or white colors for easy identification
