

Flexible, fast and professional!

FILTER ELEMENTS / FILTER CYLINDERS

We produce filter elements in a virtually unlimited variety: plain or pleated, cylindrical or conical.

Materials: Stainless steel, plain steel, galvanised steel, copper, brass, phosphor bronze, special alloys

Weaves: Plain weave, twilled weave, plain Dutch weave, Dutch twilled weave, reverse plain Dutch weave, reversed twilled Dutch weave

Filtration grade: From 3 μm up to 10 mm

Measurements: According to customer specification

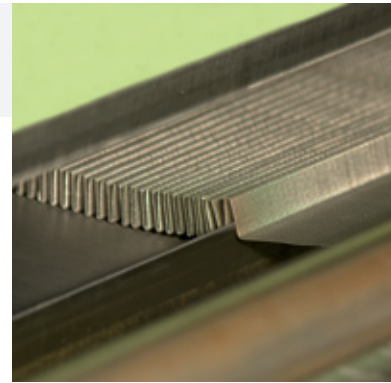

Connectors: According to customer specification, for example DOE, with threaded connectors, various adapters

Perforated plates or wedge wire tubes usually serve as support.

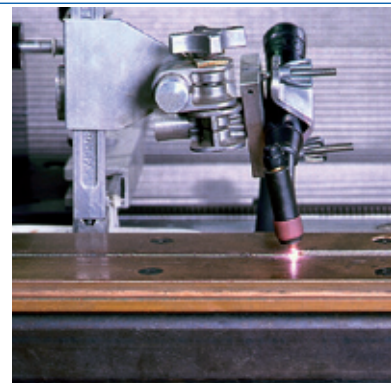

Our proficiency becomes most apparent when facing new problems in an individual way. Flexibility and short-term responses are our strengths.
