## VS12

# BIZERBA

*The manual premium vertical slicer sets worldwide standards in terms of ergonomics, hygiene, energy efficiency and safety.*

**More information**  
High performance with a wide range of solutions and options.

### Product description

The vertical carriage of the VS12 ensures ergonomic, upright operation while providing an optimal view of the slicing result.

This machine consists of a powerful blade drive. It also stands out due to its wealth of variants.

The adjustable product support prevents product from deflecting downwards and the formation of product wedges and tails.

The highlight of this manual vertical slicer is an optional integrated portion scale. The weight is indicated via touch display and you can easily control the blade speed via this touch display.

VS12 W (with integrated portion scale)

### Highlights

- Hygienically perfect design: disassembly without tools and dishwasher-safe Ceraclean® attachment parts as well as large distance between blade and motor tower for ease of cleaning
- Fine adjustment of slice thickness between 0-3 mm
- Powerful Bizerba motor, optionally with intelligent motor control Emotion® for saving energy while the motor is even more powerful, low-noise operation and virtually no heating up of the depositing area
- Optional Ceraclean® surface refinement for easy cleaning
- Minimized risk potential since entire slicing area is covered during blade sharpening procedure

Touch display

Fine adjustment of slice thickness

### Options

- Ceraclean®: Surface refinement
- Emotion®: Motor control for load-dependant energy consumption
- Integrated portion scale: Display and control via touch display
- Blade options: Ceraclean® blade, cheese blade, bread blade
- Version with integrated portion scale up to 3 kg / 2 g
- Remnant holder variants: smooth, checkered, with spikes
- Product fixation device
- Bias cut device
