

BeneSOL 10-0-10

Organic Fertilizer

BeneSOL 10-0-10 is an organic solid fertilizer that will contribute to soil organic matter and soil fertility. The mix of different organic raw materials guarantees a sophisticated compound fertilizer with a controlled release of nutrients over time.

The period of releasing nutrients lasts from a minimum of 90 until up to 120 days. BeneSOL 10-0-10 is especially suited for the vegetative growth phase. Due to the balanced proportion of nitrogen and potassium, the fertilizer leads to a stabile development of leaves, stems and vegetative organs. Especially interesting for high phosphorus soils and for sites with restrictions on phosphate levels.

This fertilizer is certified for use in organic agriculture in compliance with EC 834/2007 and EC 889/2008.

Unique characteristics:

- Strong effect on soil fertility
- Balanced N:K ratio of 1:1
- Stable development of vegetative organs
- Suited for high phosphorus soils
- Certified for use in organic agriculture
