

ASO 920

Chamfering Machine, selfpropelling

Heaviest welding bevels - also in tulip form - can be effectively milled with the ASO 920. This automatic edge milling machine convinces in its performance league.

ASO 920

Further accessories can be found in our **Accessory Catalogue**.

Applications

- ▶ Especially suitable for heavy, long and extensive workpieces
- ▶ This machine is universal for all materials and suitable for continuous operation
- ▶ Milling of tulip shapes at angles of 0° - 30° related to the perpendicular.
- ▶ Preferably mobile use on roller carriage, but also with crane support or stationary

Features

- ✔ Easy chamfer and angle adjustment
- ✔ Automatic adjustment of feed-rate and speed (rpm) depending on the relevant material from 0 - 1.2 m/min.
- ✔ Feed along the Z-axis up to 100 mm possible
- ✔ Feed along the X-axis up to 90 mm possible
- ✔ Sturdy cast iron/steel construction, hardened work table with guide rollers
- ✔ Working height 920 - 1,110 mm

Delivery contents

- ✔ Allen key 8 and 10 mm
- ✔ Electric cable without plug
- ✔ Automatic workpiece thickness setting
- ✔ Operating manual

Technical data

ASO 920

Motor	5.5 kW 0 - 900 rpm
Energy	400 V, 50/60Hz
Maximum feed traverse in X- / Z-axes	90 mm / 100 mm
Angular adjustment	0° - 30° regarding the perpendicular
Workpiece thickness	8 - 100 mm
Weight	420 kg
Item no.	58725
