kelteks Repair System

all-in-one repair kit for fiberglass elements

The only fiberglass repair kit on the market that contains everything you need to get your work done!

Set Content:

- Set contains some of our premium products such as **kelteks Woven Roving** 300g, **kelteks Chopped Strand Mat** 300g, and **kelteks Edge Protector**, which is a unique product intended for strengthening the angles of composites, larger cracks, holes, etc.
- **kelteks Repair System** is equipped with sandpaper for substrate preparation and Peel Ply fabric. Peel Ply fabric is placed as a final layer on the laminate and allows work to continue without additional sanding.
- Inside you can find Polyester resin, Catalyst, and top quality acetone for cleaning.
- As we are many years present in this niche adding an additional Measuring cup, Plastic mixing stick, Resin application brush, and Protective Nitrile gloves was a natural thing for us.

Applications

- boat repair
- fiberglass repair
- car repairs
- motorcycle repairs
- glassfiber parts fabrications

ROVING FABRIC
2,0 m²

GLASS MAT
2,0 m²

EDGE PROTECTOR
5,0 m

PEEL PLY
2,0 m

POLYESTER RESIN
0,75 L

CATALYST
10 ml

ACETON
0,25 L

SAND PAPER
10 x 20 cm

GLOVES NITRIL

PLASTIC MIXING STICK

BRUSH

MEASURING CUP
1,0 L

Made for You...
From professionals
for professionals!

The only fiberglass repair kit on the market that contains everything you need to get your work done!

Fiberglass is a very appreciative material for shipbuilding. And another great advantage is that almost any damage to fiberglass boats can be repaired.

PROFESSIONAL KIT FOR EXCELLENT RESULTS

You ran
out of resin?

Contact our sales representatives. We have prepared for you additional packages of resin of 2,5l & 5,0l.

About **kelteks**

Your specialist for technical and functional
textile development & manufacturing!

More than 30 years of experience in the composites industry as a manufacturer and developer of high-tech technical textile reinforcements for a large variety of applications. Our field of expertise is the large-scale production, with attention to every detail, of technical fibers such as carbon fibers, glass fibers, basalt fibers, etc., utilizing state of the art machinery and technology.

We are a family owned business and we are proud of the long experience of our 250 well trained, highly educated, and dedicated technical experts that ensure the best products and services for you. You can trust us to be your partner for the complete value chain of your product so that you can focus on your own business. Our 3 factories are located in the heart of Europe in beautiful Croatia, from where we supply our industrial customers in more than 30 countries. It goes without saying that we are certified according to DIN EN ISO 9001:2015 and DIN EN ISO 14001:2015

Other Products

check out our NEW website for more products and innovative solutions

kelteks.com/products

kelteks Edge Protector

is the NEW solution for the perfect corner reinforcement. Fluffy and cuddly fibers easily squeeze into sharp-edged joints and covers so stress-cracking and laminate chipping is effectively prevented.

kelteks FormMat

consists of 2 layers of chopped fibers and 1 layer of a veil which saves you the time of work and preparation. High-volume fibers allow optimal coverage of critical areas. Especially suitable for the manufacture of parts that require mechanical properties

kelteks Unidirectional

Unidirectional (UD) fabric is one in which main, long, structural fibers are oriented in one direction, held in place by a secondary non-structural stitching threads. Structural orientation can be in 0 or 90°. Unidirectional fabrics are offering the ability to place fibers in the component exactly where it is required and in the optimum quantity.

kelteks Woven Roving carbon

Strength and rigidity qualify carbon fibre reinforced plastics (CFRP) for all areas in which high mechanical loads occur, but the weight should remain low.

kelteks Combimat

We are producing Combimat in many different variations, a combination of fabric with veil (glass, polyester,...), mat (powder or emulsion) or a combination of two fabrics layer. Solutions are unlimited in our production.

kelteks Needled Fabrics

We produce on our own specialized machines that we customized for the production of technical textiles. We are especially proud of the big variety of our specially developed high-performance needles. This, plus our in-house expertise, and highly trained employees can make any needed product for you.
