

## Product description

Applying Reinasan 24/7 active Protection adds additional functionalities to the property. For example, the active source control of organic and atmospheric pollution to prevent fouling, algae deposits and glass corrosion. Partly because of this, rain can keep the glass clean. A pH-neutral maintenance agent is available to support heavy soiling for ergonomic and easy maintenance. This preserves the energy yield (demonstrably) and extends the service life.

## Addition

The protection and maintenance products have no negative effects on existing material properties. A 10-year warranty is given for proven performance and durability for optimum performance.

## Partner information

Reinasan works exclusively with partners. After a company successfully completes the training course, the trained employees are certified. This enables the partner to carry out assignments 100% independently. In this way, they can distinguish themselves by offering extra service and contribute to making our planet more sustainable and circular. Also, the system offers the partner the opportunity to generate more turnover.
