A versatile workstation

More than a simple acquisition workstation of high-quality images, Med Vet offers very efficient functionalities :

- ✓ A dialog box allows to enter the demographic information of the animal (owner, name, size, weights, gender...)
- ✓ Standard tools such as windowing, zoom, shutter, distance and angle measurements (opened and Closed angles), rotations, video invert as well as preset annotations and drawing possibilities.
- ✓ High performance image processing applied manually or set towards user's habits or specifically towards exam requirements.
- ✓ Windows or DICOM printings available, measurements and ZOOM can be specifically indicated on prints. More than 20 Printing lay outs are available.
- ✓ All data are securely archived for easy access at any time.
- ✓ CD/DVD can be burned directly from the station
- ✓ The graphical user interface can easily be customized towards OEM requirements.
