

Rain hood | sun shield, stainless steel

The NSBon-02 | NSBon-03 are rain hoods | sun shields for the NSB-xyxy | NSV-xyxy series electrical enclosures. Rain hood material is stainless steel. Designed for reliable protection for outdoor siting with water run-off to the rear. Easily retrofitted.

Rain hoods are required to prevent settling and building up of liquids, corrosive solids, minerals, dust, dirt and debris on top of an electrical enclosure. If corrosive liquids and solids settle and build up on top of an electrical enclosure, the integrity of the electrical enclosure coating and material may be compromised, which may lead to corrosion and ingress of liquids and solids into the enclosure.

The NSBon-02 | NSBon-03 rain hoods are an excellent choice for retrofitting onto electrical enclosures with a flat roof and we generally recommend to use it for outdoor siting.

Technical Data

Material	: Stainless steel (AISI 304)
Surface finish	: Brushed, grain 240
To fit	: Enclosures series: NSB-xyxy NSV-xyxy
NSBon-02	: Enclosures size: width = 300 mm; depth = 210 mm
NSBon-03	: Enclosures size: width = 380 mm; depth = 210 mm
Supply includes	: Assembly parts
Packs of	: 1 pc
Weight/pack	: 1.68 kg

Ordering Information

NSBon-02	Rain hood sun shield, stainless steel, 300 x 210 mm
NSBon-03	Rain hood sun shield, stainless steel, 380 x 210 mm
