

Perforated Metal Plank Type BZ-G

The perforated metal plank BZ-G 'Zahn, groß' offers a free cross section of at least 70%. It is therefore suitable for use in intermediate levels. Through the use of BZ-G profiles, there is no need for a sprinkler system below these intermediate levels. Optimal flue exhaust and sprinkler suitability are thus guaranteed.

Technical Details

Material	Steel S235JR:	2,0 mm, 2,5 mm
Surface treatment	Steel:	untreated, hot-dip galvanized, pre-galvanized
Free cross section	Min. ~ 70 %	
Width	310 mm, 325 mm (other widths possible in demand)	
Height	40 mm, 50 mm, 75 mm, 100mm Corresponding to width, thickness and statical specification)	
Ball proof	Ø 15 mm – ball with Ø 15 mm can't fall through	
Slip resistance	R10 / V10 (Steel hot-dip galvanized)	
Longitudinal grid	70 mm (35 mm)	
Production length	max. 10 m, depending transport limited
