

BeneSOL FEATHERMEAL 13N

Organic Fertilizer

BeneSOL FEATHERMEAL 13N is an organic fertiliser that contributes to soil organic matter and soil fertility. It is an organic fertiliser with controlled release of nutrients over time.

The time period of nutrient release amounts to at least 90 to 120 days. BeneSOL FEATHERMEAL 13N is an N-rich fertiliser with a controlled release of nitrogen. Due to the high nitrogen content, the development of roots, leaves, stems and vegetative organs is stimulated. BeneSOL Feathermeal 13N is commonly used as a highly effective N-source in organic farming. The fertiliser is also perfectly suited to be used as a supplement to other fertilisers.

The product is manufactured in accordance with the EU regulations EC 1069/2009 and EU 142/2011.

Unique Characteristics

- Fertiliser with very high N content and slow release.
- Effective for use in organic farming
- High organic matter content
- Can be used in addition to other fertilisers
- Listed by the Control Union

Product Characteristics

Pellet diameter	4,5 mm	Raw material	100% Feathermeal
Dry matter	97%	Humidity	3%
Organic matter	85%		

Nutritional values

Nitrogen	(N total)	13,0%
Nitrogen	(N organic)	13,0%

Dosage averages

Arable land vegetables	1000-1.500 kg
Trees	2-4 kg/tree*
Horticulture	1.000-2.500 kg/ha*
Garden	1.000-1.500 kg/ha*
Sports and Lawn	500-1.500 kg/ha*
