

# GROWFERT

BIOSTIMULANT OF ROOTS

ORGANIC-MINERAL FERTILIZER

Organic mineral fertilizer NP 4.8-23 with molybdenum and zinc

## COMPOSITION (%w/w)

Total nitrogen (N)	4.8%
Organic nitrogen (N)	2.8%
Ammoniacal nitrogen (N)	2.0%
Total anhydride phosphorous (P <sub>2</sub> O <sub>5</sub> )	23%
Phosphoric anhydride (P <sub>2</sub> O <sub>5</sub> ) soluble in water by orthophosphoric acid	23%
Organic biological carbon (C)	10%
Water-soluble molybdenum (Mo)	0.2%
Water-soluble zinc (Zn)	0.2%
Zinc (Zn) chelated with EDTA	0.2%

GROWFERT stimulates the rooting processes as its special organo-mineral composition promotes the release of new roots hair and it help plants overcome stressful stages such as transplantation or repotting. GROWFERT also promotes hygroscopic mechanisms allowing water and mineral salts dissolved in it to stay longer around the root system, helping plants overcome periods of water deficiency. GROWFERT can also be used for the bath of pre-transplanting or bath of the seeds immediately after sowing.

DOSAGE AND METHODS OF USE	CROPS	APPLICATION	DOSE
FERTIGATION	Fruit Horticultural Floricultural Industrial	1-2 Throughout the cycle	4-8 L/ha

Warnings: Shake the product well before use. For any mixtures with other products, make preliminary tests. Observe the dosages shown. The product is not combustible and is stable at ordinary temperatures and pressures. Store the product in adequately ventilated rooms at temperatures between + 5 °C and + 35 °C.

## FORMULATION
