

**Osmo Feathermeal 13N is an organic fertilizer that will contribute to soil organic matter and soil fertility. The type of raw material makes an organic fertilizer with controlled release of nutrients over time.**

The period of releasing nutrients is minimum 90 to 120 days. Osmo Feathermeal is an N-rich fertilizer with a controlled release of Nitrogen. Due to the high amount of nitrogen the development of roots, leaves, stems and vegetative organs can be stimulated. Osmo Feathermeal 13N is commonly used as a very effective N source in the biological agriculture. The fertilizer is also very well suited to use complementary to other fertilizers. Osmo Feathermeal 13N is certified for use in organic agriculture EC 834/2007 and EC 889/2008.

## I UNIQUE CHARACTERISTICS

- High N fertilizer with a slow release
- Very effective for use in organic agriculture
- High in organic matter
- Can be used complementary to other fertilizer
- Listed by FIBL Germany

## I GUARANTEED COMPOSITION

### Osmo Feathermeal 13N

13,0 % total nitrogen  
13,0 % organic nitrogen

85 % organic matter

## I RAW MATERIALS

Feathermeal 100%.

## I DOSAGES

Arable land vegetables	1000-1500 kg/ha
Trees	2-4 kg/tree
Horticulture	1000-2500 kg/ha
Garden	1000-1500 kg/ha
Sports and lawns	500-1500 kg/ha

\*For a specific crop please contact Benefert bv

Storage in a well ventilated place away from moisture.  
Delivery: 500 big bags and in 25 kg bags, available in pellet 4 mm.
