

ONE-TOUCH

Office 
Home 

Add-on

Power at the touch of your fingertips with the One-Touch's LED touch sensors that activates the German-engineered motor and rotates the unit to reveal the power outlets. Turn your boardroom into a state-of-the-art meeting place with the sleek One-Touch!

TOUCH SENSOR

There are pulsating light strips on either side of the unit. Lightly touch the light strip to open/close the unit.

OBSTRUCTION DETECTION

In the event of an obstruction, the unit will immediately stop and reverse back to the previous position.

POWER OUTLETS

Choose from 24 international power outlets available in black, grey and white. Optional colours also available. Contact your closest distributor for more information or visit:

www.powerlogic.net

POWER OUTLET ORIENTATION

Power outlets are pre-fitted at any angle in 45° increments.

SWITCHES

The unit is able to house a 15A Thermal Overload Switch as well as other standard red or green switches.

COMMS MODULE

The comms module houses two peripherals and can be fitted on one or both ends. Configurations are limited.

AESTHETICS

The unit has a wide variety of colours and finishes, for both metal and plastic components, that are sure to complement any environment. Contact your distributor for more information.

USB SMART CHARGER

Various configurations of USB smart chargers available. For more information visit: www.powerlogic.net

FLUSH MOUNTING

When closed, the unit sits almost flush with the work surface to minimize obstruction.

RAISED INTERFACE

The unit is raised above the mounted surface to reduce spill fluid ingress when in the open position.

EASY INSTALLATION

Four ratchet clips quickly and easily slide on to fasten the unit in its mounting cut-out.
