Feeding time:

Just crush some Danalac Baby Biscuits Banana into a bowl. Add some baby milk or boiled water and mix. The meal is ready to be spoon-fed or to be bottle fed. When your baby is ready for self-feeding, offer Danalac Baby Biscuits Banana straight from the pack. These biscuits are ideally shaped and therefore easy for your baby to hold.

A responsible person should always be with young children at feeding time particularly when they are learning to feed themselves.
