

Inka Sweet Stevia Phi400x

Innovative stevia sweetener

More than a simple sweetener

What is Inka Sweet Stevia Phi 400x?

At first glance, it's just another stevia sweetener on the market.

IT IS NOT. It is a stevia formula.

It is white, odorless fine powder. It has an extraordinary sweetening property, moreover, it significantly promotes optimum balance of the body.

This is due to the fact that it contains ingredients that themselves have positive physiological effects.

What are these ingredients?

Reb A (99% of purity) + other steviol glycosides

Stevia is a herb with several positive properties:

- neutralizes toxins, prevents the growth of viruses
- normalizes metabolism
- stabilizes blood pressure, improves oxygen supply
- stimulates insulin production, increases glucose tolerance
- lowers cholesterol level, protects the liver and prevents inflammation
- has a regenerating effect on the skin and does not cause dental caries unlike sugar

Inulin fiber

(prebiotic, extracted from chicory)

Inulin fiber stimulates the growth of beneficial bacteria in the intestinal flora, which are essential for digestion and provides them with food, thus optimizing the functioning of the intestinal tract.

Among other things, inulin also:

- improves the functioning of the digestive system
- positively affects the pH of the intestine
- helps break down fats and absorbs minerals more efficiently
- regulates sugar metabolism
- does not increase blood sugar levels
- may play a role in the prevention of colon cancer
- may be beneficial in cardiovascular disease

Why is Inka Sweet Stevia Phí the best choice for sweetening?

- 100% Natural sweetener
- It has absolutely NO aftertaste
- 400 times sweeter than sugar, so 1 kg is equivalent to 400 kg of sugar
- 0 kcal
- By its natural components, it nourishes and promotes the optimum balance of the body
- It does not cause any unpleasant side effects
- It dissolves easily
- It is also noticeable in product manufacturing that it is perfectly applicable to other components. It does **NOT** alter taste, texture or color
- All market segments are available with products manufactured by Inka Sweet Stevia Phí, as they can be consumed by diabetics, and those dieting
- Highlights the flavor of the final product
- Suitable for the complete replacement of sugar
- Adds value to the food made with it

We recommend it to?

For the production of liquid food products (soft drinks, yoghurts, jams, sauces, etc.), for sweetening instant powders, food supplements.
