COLOUR GUIDE

BLACK

The shade cloth with the greatest choice of shade values & widths. Ideal for every application. Naturally resists the sun's harmful UV radiation with long life.

WHITE

White shade cloth reduces heat build-up by reflecting the sun's powerful radiation.

White's reflectivity has improved diffusion underneath. Aesthetically pleasing, common in greenhouse applications.

GREEN

Common in nurseries and other decorative/agricultural applications.

Commonly found as wind-screens, privacy screens, and tennis courts
