EMPLOYEE INTEGRATION - A SOURCE OF SUCCESS

Healthy relationships in employee teams are the foundation of success. Only a well-coordinated and well understood team is able to im¬plement the plans set by the managers efficiently. In addition to a high level of competence, the atmosphere in the teams of employees is also important, and this is due to the state of relations between employees. If the relationship is close and positive, the team wo¬rks like a well-oiled machine. Our offer is aimed at teams that look after the relations between employees. Team integration is a conscious and beneficial choice, which brings expected financial benefits. Are you looking fo¬r a way to integrate your employees using the possibilities offered by the Internet? Analyse and adjust the optimal solution for your team. Check which of the following forms of integration is the best solution for your team and write to us.

DECISIONS - INTERACTIVE LIVE THRILLER

Our proposal sets a completely new path for professional and exciting online entertainment. Imagine that you create the scenario of this game yourself during the game and your decisions can weigh in on someone's fate. It is up to you whether they will manage to free themselves or whether the effects of your actions will make their current situation worse. You will be able to watch the fate of an imprisoned person and their fight for freedom and salvation. The correctness of your individual decisions will be contrasted with the will of the majority and the solution will always remain unpredictable.

WHO KILLED THE MAID? ONLINE

BBestseller on the market of integration games with a crime related theme. Original proposal of the Effective Project online version. Participants of the event, who are divided into investigation teams, solve the hotel maid murder mystery. The tasks of the adepts of criminal art include the analysis of DNA traces, fingerprints, the creation of a portrait from memory, as well as visiting the crime scene in a virtual space. Time is running out and the murderer remains at large. The results of the investigation turn out to be surprising for the investigators. An engaging crime story builds an atmosphere and tension.

SABOTAGE

This was supposed to be an ordinary online meeting where we will learn how to improve our communication. The workshop was to be led by no one else but an experienced police informer. All those intently listening to the words of the leader, who was boring to say the least, suddenly see someone kidnapping a man before their eyes. Nobody can do anything, the entire group is in shock. It turns out that the kidnappers are saboteurs who have already attacked our company. All the participants of the online meeting are involved in a dynamic, 60-minute struggle to save the informant's life and neutralize the group of saboteurs. In the background you can see a ticking bomb, and the mission is managed by the police informant. If you manage to disarm the bomb and save the kidnapper within an hour, there will also be a chance to save the company. Give it your all and perhaps we will be able to make it out in one piece.

TELEPHONES - ONLINE THRILLER

Do you like to be afraid? If so, „Phones" is the game for you. The participants of the script are caught up in a horrifying horror story. The game's mechanics are constructed in such a way that the participants are mainly based on interaction with phones. To save themselves and their colleagues, they have to analyse the material recorded on the phones, talk to an unstable psychiatric hospital patient, and put the facts together into one coherent whole. If they fail, the „phones" will stay with you forever...

ONLINE CITY GAME

The early 1920s. In Bielsko Biała an international organization is in operation, as it was presumed at the time, that dealt with extortion and the blackmailing of influential people calling itself the „Black Hand". After the trials and tribulations of the Police and with a bit of luck, they managed to put an end to their actions. Almost a hundred years later someone started to continue the work of the same organization. Hotels, banks, politicians and influential people were on target. One of your employees also received a letter with the threat of being discredited in the eyes of the public. You face a great challenge- one of the most camouflaged criminal groups, who will stop at nothing to be able to achieve their goals.

FUNNY ROOMS - LET'S TALK

The concept of the event assumes three meetings with colleagues for each participant. The fun in all this is that the topic of the conversation is already waiting for the interlocutors, meaning they draw it from the pool of topics. The topics were chosen in such a way that the conversation conducted on their basis is full of positive emotions and funny references. We believe that laughter, fun and excellent conversations are the key to building relationships with employees. The final effect is to present information about your interlocutors to the rest of the group. Let's get to know each other better. Let's talk!

SELECT THE TYPE OF EVENT

CLASSIC EVENT
A form of integration that can be implemented under standard market conditions, without restrictions related to climate, political conditions or threats of emergencies.

GAMING EVENT
This is an attraction, during which the participants become characters from computer games, le¬ad game characters or machines performing appropriate tasks. Gaming events put less emphasis on the integration of participants, being at the same time entertainment based mainly on solutions contained in computer games.

ONLINE EVENT
This proposal is suitable for teams working remotely, it contains features of a classic event, and the possibilities offered by the Internet. During online events we integrate employees by implementing team building programs in an online environment.

HYBRID EVENT
This is an event combining solutions for online and classic events. We usually use these solutions when we want to integrate branches of a given company, working together at a distance. The implementation takes place in several locations at the same time, in the classical formula combined with online coopera-tion between teams.

EVENT WITH DELIVERY
This is a proposal for teams that want to hold an event within their own facility. These are classic programs with „delivery to the client". This means that the team building games can be held at the client's facility.
