GEDA[®]
UNI-MAST

An ingenious system: can be used on all GEDA rack and pinion hoists from 300 kg to 2,000 kg load capacity.

Work economically and flexibly in future with just one mast system!

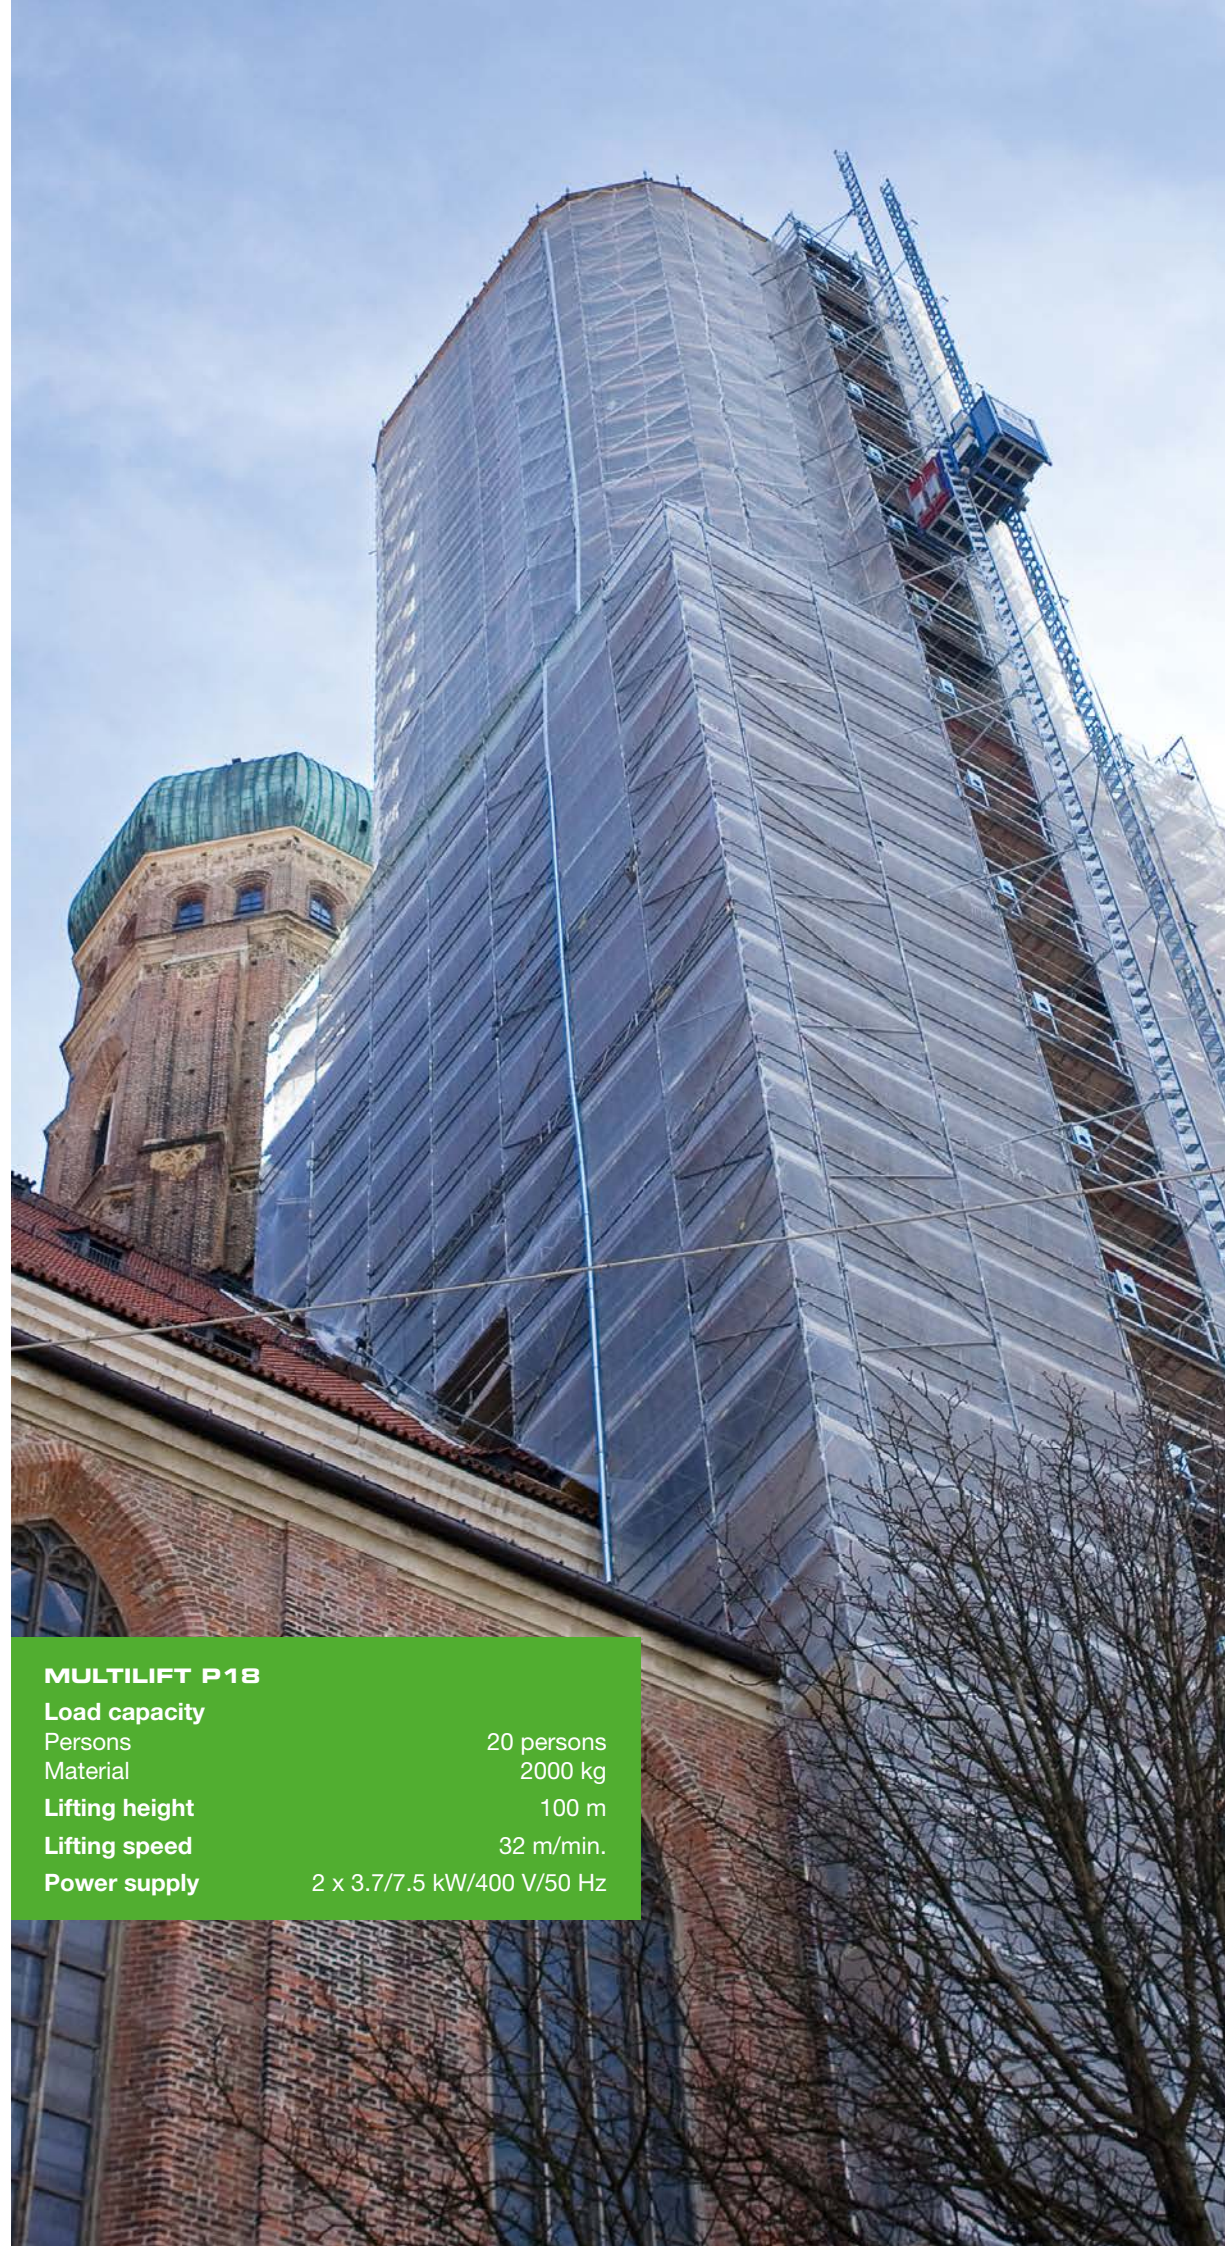

The 1.5 metre mast sections are easy to put together and are secured with captive bolts and secured nuts.

MULTILIFT P18

Load capacity	
Persons	20 persons
Material	2000 kg
Lifting height	100 m
Lifting speed	32 m/min.
Power supply	2 x 3.7/7.5 kW/400 V/50 Hz

The GEDA Multilift P18 puts every advantage at your disposal:

- ▶ **Compact, pre-installed base unit comprising: car, base enclosure, flat cable bin and drive ①**
- ▶ **No foundations necessary**
- ▶ **Modular system**

① Unloading the base unit with the crane.

② Installing the mast sections from the car.

③ Ideal for interior work: The enormous loading volume makes it possible to transport bulky materials (e.g. gypsum plasterboard).

④ Optional:
• Level pre-selection in car
• Level pre-selection at all levels
