ABOUT US

Since its inception in 1977, M.M. has been operating in the **glass fibre reinforced plastics (FRP)** industry, producing **high quality gratings and structures** (handrail systems, walkways, stairways, ladders, fences, gates, etc.). The intrinsic properties of FRP allow to create light, resistant and easy to install structures that do not require maintenance and are characterised by great versatility of use.

The company offers **customized solutions and additional services** such as technical design, structural calculation for composite materials, chemical and mechanical resistance tests, any type of cut to size, shaping and finishing.

Every phase of the company process, from design to production, from the quotation to the follow-up service, is focused on **customer satisfaction**.

STRUCTURAL PROFILE	rectangular profile in FRP 80x50x5 mm, grey colour
INNER STRUCTURE	grating or profiles in FRP, grey colour
GATE HINGES	stainless steel
CLOSING LATCHES	stainless steel

GATES

Gates are made of profiles, fibreglass gratings and stainless steel accessories. The swing leaves size can be adapted to customer needs.

Gates are available in the following versions:

- gates for driveways with double swing and manual closing - CE marked
- pedestrian gates with single swing and manual closing

FRP gates for driveways bear the CE marking in compliance with Regulation (EU) No. 305/2011. Tested in accordance with **UNI EN 13241-1** standard.
