ALFAMAK'S QUALITY POLICY

ALFAMAK®

Alfamak's primary goal is to see the future with the help of our R&D team to maintain its quality standards at the maximum level and to present better products are two pieces of our quality policy.

OUR MISSION

ALFAMAK®

Our mission for a long time has been keeping the quality and safety at the top for every single part of our products. Delicate design, implementation of new innovated safety elements, development and manufacture are what we have done from many years ago.

OUR VISION

Supplying the premium quality of gas springs worldwide with fastest delivery and technical support.

PROMINENT FEATURES

SAFETY:

All gas springs are designed with safety distance from 1mm to 3mm.

FIXING ELEMENTS:

We've solved our customers' problems by providing them the different suitable fixing elements.

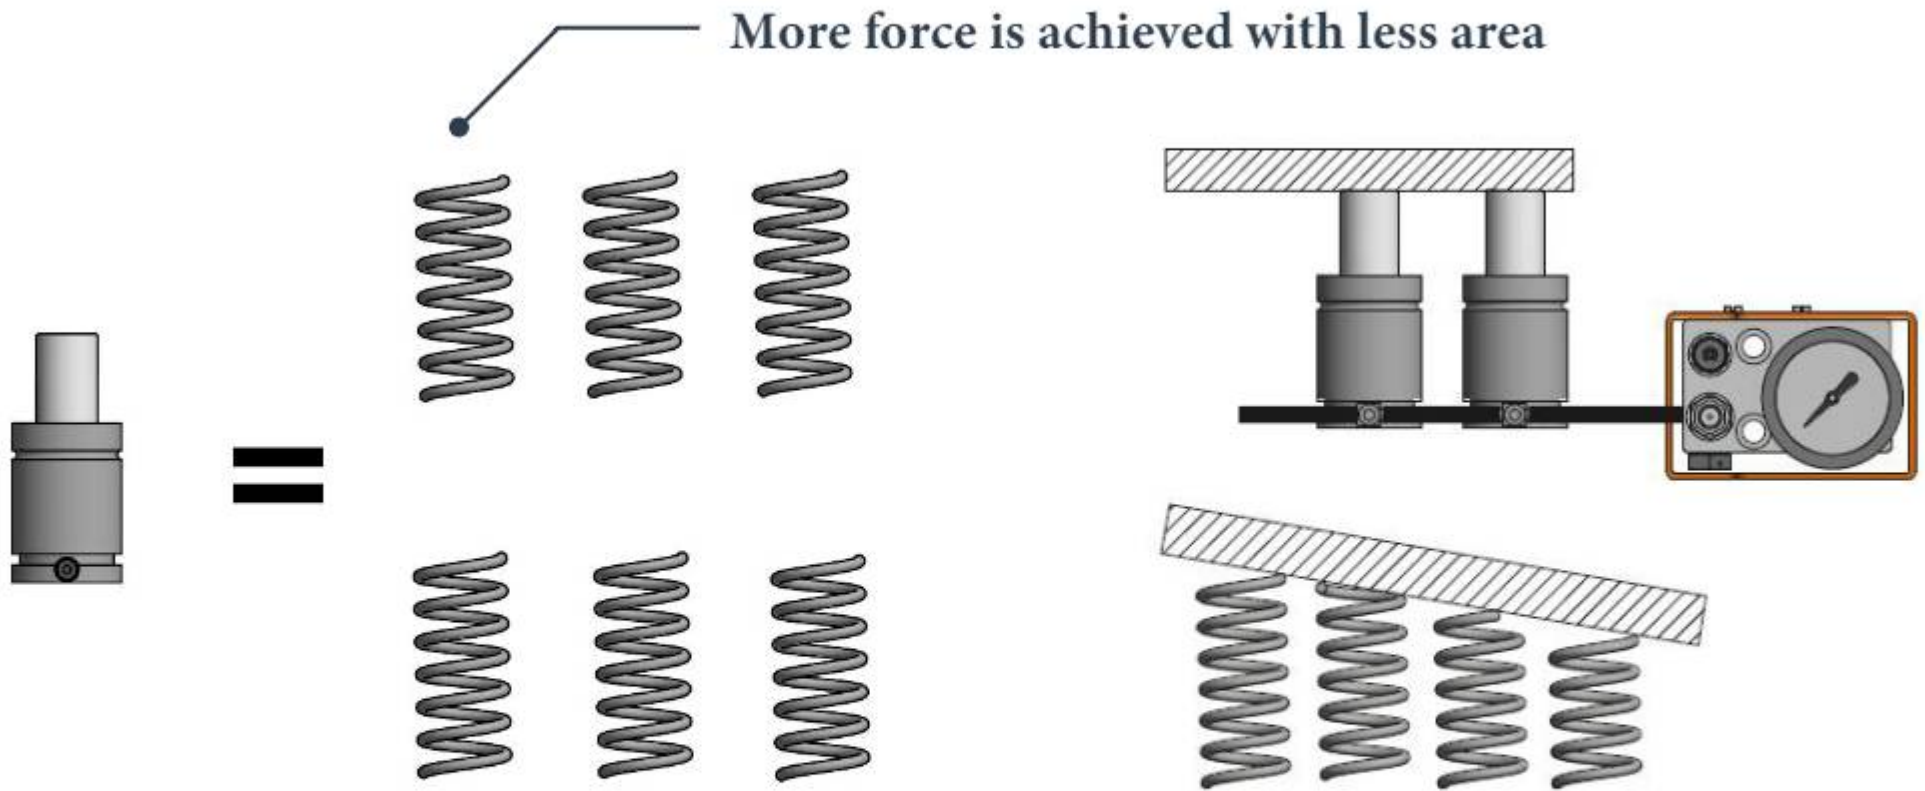

PROMINENT FEATURES

LONG LIFE:

Alfamak's gas springs have longer life in compare of other brands in the world.

PROMINENT FEATURES

Force is balanced in serial connection systems created with gas springs. The pressure value can always be seen on the system. Longer life is provided for the existing system.
