About

Phytholistic® Magnesium is a purely plant-based, organic magnesium powder made from sea algae/sea lettuce. The algae are cultivated in France's coastal regions, hand-picked by our contract farmers, thoroughly air-dried, and ultimately extracted into natural magnesium.

Water is used as the extraction agent, more precisely the seawater in which the algae were cultivated, which underlines the sustainability of the product.

In addition, many magnesium products that are offered as dietary supplements are often dosed very high. Our raw material, on the other hand, is ideally suited for offering a moderately dosed, unique all-rounder magnesium product.

Therapeutic Applications

Supports muscle function

- Contributes to normal energy metabolism
- Crucial for physical performance

Important for bones and teeth

- Helps build and maintain bones & teeth

Supports energy metabolism

- Contributes to normal energy metabolism
- Can reduce fatigue and tiredness

Supports the nervous system

- Supports various functions of the nervous system

Product Features

Botanical Origin	Ulva lactuca
Origin	France
Bioactives	Sea lettuce powder (organic)
Shelf life	24 months
Dosage form	capsule, tablet, dragee, powder
Appearance	light grey color
Recommended dosage	varies
Characteristics	25% magnesium content, < 200ppm iodine
Product Certifications	Organic, Kosher, Halal

Key Benefits

Energy metabolism

Muscle function

Nervous system

Bone health
