

Cold Bend Test CBT

Device for Cold Bend Test at low temperature

Product No.: 402.0020.01

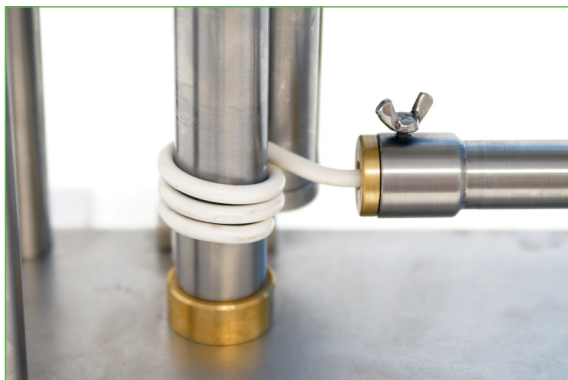

Technical details:

Size (width x length x height)	350 x 485 x 410 mm 13.78 x 19.09 x 16.14 Inch
Weight	Device: 21 kg / 46.3 lbs Accessories: 14 kg / 30.8 lbs
Material	Stainless steel

Device details:

- Device and operation according to the standard **IEC 60811-504**
- The complete set offers various spindles and cable guides with many diameters:
Winding spindles: 10, 14, 18, 22, 28, 30, 35, 40, 45, 50 mm outer diameter
Cable Guides: 4, 7, 9, 11, 13 mm inner diameter
- Very robust and solid construction
- Winding spindles interlock easily and guides are easily fastened
- Device suitable for positioning in cold chamber
- Maneuver Ratio: 2/1: 2x Crank rotation = 1x spindle rotation
- Spindle/Guide diameter ratio: 0.8x sample diameter
