GENERAL INFORMATION

Design

MK10-DH is a modern thermal transfer printer for Partex profiles for all needs of wire and cable marking with high production speed (up to 125 mm/sec).

MK10-DH has a direct connection to computer by mean of USB cable and is controlled by Partex software WinSign. It prints on both sides of the profile direct from reel and semi detaches the marker at wished lengths with the built in cutting unit.

In addition to PO-profile the MK10-DH prints on heat shrink tubing and Partex PP profile etc.
